

Dear Parent/Carer

You may well have heard by now, but we have had a visit from the wonderful detection dogs of the K9 unit in school today. We had a visit last year that was really successful and today was no different.

The team came to visit as part of an initiative across a number of local schools who organise the dogs to come in and sweep the site, engage with the students and raise awareness of illicit substances.

The students were brilliant and reacted really positively to the dogs on the school site and I am really pleased to report that JJ & Axe performed a clean sweep of the grounds, the students and the staff!

We look forward to welcoming K9 (JJ & Axe) and their handlers again soon!

If you have any concerns at all about your child and inappropriate use of illicit or harmful substances, please get in touch with us here at school.

Yours sincerely,

Mr M Chance
