

ELL/jr

21 September 2022

Dear Parent/Guardian

I am writing to all parents/guardians whose child has opted to study GCSE Photography in Year 9 and Year 10 to let you know about the materials and equipment that are required and that will be useful for the GCSE course.

All GCSE students are provided with a good quality sketchbook or file folder during their photography lessons with all of the materials and equipment required to meet the demands of the course. However, many students prefer to have some of their own subject specific equipment to use at school or at home, particularly to help when independently completing self-study or coursework tasks. We appreciate that such materials and equipment can be expensive to buy and for this reason, we are offering the **one off opportunity** to order and purchase materials from the Art department at the cost price of £36.46. A breakdown of what is included for this price is listed below. **Please note it is not compulsory to purchase a pack.**

As Photography students use electronic sources to save their artwork and research, a **memory stick** is an invaluable piece of equipment, and we advise all students to have one with them in all their lessons. A memory stick is included in the photography pack.

Students wishing to buy materials for their GCSE course should complete payment via *parent pay* by Thursday 6 October 2022. After this time we will be unable to process any further orders.

Yours faithfully

Mrs E Lynch  
Art Subject Leader
