The Impact of Degrees on Earnings

Difference in lifetime earnings between graduates and non-graduates (once taxes and student loans are taken into account):

- £130k for men
- £100k for women

A gain in average net lifetime earnings of around 20% for both men and women

The Wider Benefits of University

- Universities UK data (July 2023):

- 97% of business leaders polled revealed that graduates reach managerial positions faster as a result of going to university
- 71% of business leaders also believe that going to university enables graduates to build vital transferable skills

- The Wellbeing of Graduates (Nov 2017):

- Graduates tend to be more satisfied with their lives than non-graduates; however, they also tend to be more anxious across all income levels than people who have no qualifications above A-level.
- Graduates tend to find their lives more worthwhile and be happier than non-graduates.

The Wider Benefits of University

According to *The Lancet Public Health* journal (Jan' 2024):

- Every year spent in school or university improves our life expectancy
- An adult's risk of mortality went down by 2% for every year in full-time education
