

Welcome to  
Wildern's  
Summer  
Reading Project

# What is the Summer Reading Project?

We are inviting all of your year group to read 'Melt' by Ele Fountain over the summer holidays and to take part in our Summer Reading Project challenges!

In reading this book, you will not only be learning lots in preparation for starting Key Stage 4, but it will help avoid that summer brain drain! Reading is one of the best ways for you to maintain and grow your brain; by reading and taking part in the Summer Reading Project challenges, you will sharpen the skills and information you have gained during Year 8. Reading is a really good way to relax too!

# Every Word Matters, Every Page Counts

## ► What do I have to do?

You simply need to get comfortable, remove any distractions and start reading!

We will be publishing a guide on the school website at the beginning of the summer holidays that will contain all the details for the Summer Reading Project challenges, and how you can take part.

Talk to whoever is at home about the book. Talk to your friends about it. And in September, talk to your teachers about it.

## ► How do I get my book?

You will be able to buy the book for a reduced price of £5.19 from the school through Parent Pay. We also have an audio version available for free in the Home School Partnership area of the school website.

'Melt' A story of survival, adventure and friendship.

When the lives of two teenagers take a drastic turn 13 year old Bea's world collides with Yutu in the remote Arctic tundra and they find themselves together in a desperate search for survival, and for the truth.
